

Murphy *Rebel*

Float *Rebel* - 1997 Ser. No. 356

This *Rebel* was built in 1997, and has been flown by the builder since then. It has only 473 Hours TTAF, and a Lycoming O-320-E2D, with about 1,500 Hours, a Sensenich metal prop, and 1800 straight homebuilt floats. It has the factory float fittings, and 2 comm radios & intercom, ELT, and cargo tie-down straps in the baggage area. It's a well-built *Rebel* that needs some TLC – paint cleanup, etc. It's available immediately, and is right here in Northern Ontario.

Just over 473 hours TTAF - a great fly 'n camp aircraft !

Extremely motivated seller – medical issues – MUST be sold quickly !

Asking Only \$ ~~59,000~~ CAD, - Now REDUCED to \$ 55K CAD ! Move quickly – will sell this month !

...Negotiable – call us ! A deposit will hold it don't miss out on this one !
